EXPERIENCE:

Contract / Freelance:
March 2018 – Present.

Aspen Build Ltd - Project Manager

Number one on-site for 50 mixed units of 1& 2 Residential Bedroom flats for Part buy and social divisions within the city center of Biggleswade. They were constructed with SFS metal framing / external Brickworks / rendering walls. I took over this project after four previous project managers had failed to complete it.

I managed to turn around this project and resolve most of the issues and put the project back on the right track to progress through good planning, the eyes on the details, proposed/drawn elements to resolve some of the problems that were holding the works from

progress, dealing with design team including bring back contractors to progress on site.

Balfour Beatty – Project Manager

Resolving defects works with several schools (St Aloysius College, Elizabeth Garrett Anderson School, Highbury Grove School).

DCB / Inland Homes plc – Project Manager

Thirty-one units Residential 1, 2 and 3 bedrooms Rent and private flats in Wembley. I took over this project after the three previous project managers had failed to complete the task correctly and were behind the program. This project was run by poor management and a lack of planning and knowledge of commercial, construction, and contracting, which left this project in poor, fanatically stated.

Balfour Beatty – Project Manager

Resolving defects works with several schools (Dormer Wells High School, Marriott's School, Noble School, and Martin Wood School). Fixed defects work in several schools (Dormer Wells High School, Marriott's School, Noble School, and Martin Wood School).

AMCM Group – Project Manager

Residential project (24 Traditional luxury houses) at Boxwood Park, Hoddesdon.

SA Limited – Projects Director

I started as a PM for a residential building at Chigwell but was shortly promoted to become Projects Director to look after all residential projects and other projects. I took over this project after the four previous project managers had failed to complete it and left it disappointed wrong due to poor management, planning, organizing, and an understanding of construction, commercial, and quality.

I turned around this project within a few months and completed it successfully.

- Redbridge- consists of 482 flats in 6 Blocks, maisonettes. Residential & Commercial
- GWH (Great Western Hospital), Shell Building (London), Santander Bank, Verizon, Virgin Media projects. Responsible for all projects from tender to contract, including construction activities, the cost of projects, liaison with clients, managed design development and coordination, and the contract completed to program and budget.

Rolls Building £110M Royal Courts of Justice

Project Manager – Royal Courts of Justice Building at Fetter Lane Fetter Lane, London EC 4A 1NL. I was already requested to join the team due to the enormous snagging work and defects left behind after the PC was issued. The building consists of an 8th-floor building with RC framing, external limestone, and glass panels, including high-sound (acoustic) specification details for using HMCTS.

Bankside Project - £160M Luxury Apartments Residential

Project Manager – High specification, high-rise residential designed by Rogers Silk Harbour & Partners next to the Tate Modern in central London. Consists of four blocks (Block A, B, C & D). The Client is a 50/50 joint venture between Native Land and Grosvenor. The scheme consists of a single-story basement covering the whole site with five separate buildings springing from the ground floor slab. Four buildings resemble a typical Roger iconic design with RC framing, panelist cladding, propped cantilever balconies, and external structural steel “exoskeleton.” These buildings vary in height from 12 to 24 stories and consist of 229 apartments.

Romford Project - £42M Residential & Commercial

Project Manager - Number one on-site - This project consisted of Phases, including constructing a hotel, multi-story Car park, Landmark building, Doctor's Surgery, Market Hall Shopping Centre, retail units, and mixed private/social Residential Flats. This construction used RC framing and was finished with Brickwork, Shiplap cladding, rendering, and stonework. I took over this project after the five previous project managers had failed and left the project. I managed to turn around both the technical and construction problems to make it a successful project, obtaining praise from the client. I received three awards during this time for “Performance beyond Compliance, including awarding considerate construction “BROZ.

I received three awards during this time for “Performance beyond Compliance, including awarding considerate construction “BRONZE.”

Countryside Properties May 2004 - Dec. 2007 Acton Project - £25M Residential/Commercial

Project Manager – Number one on-site for 187 mixed units of 1- 2 - 3 Bedroom flats for Private, Part buys, and social units, including one large and 18 retail units on the ground floor on Swainson Road, Acton. These are constructed with RC framing and finished with six types of external

CURRICULUM VITAE
